GEOMATICS CENTRE

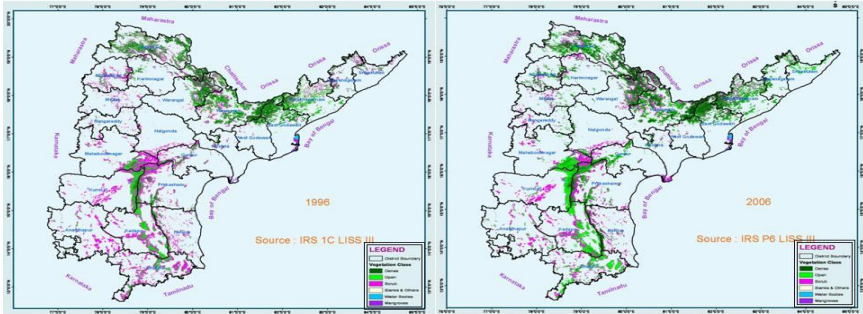

There is a well-established Geomatic Centre in Forest Department.

Keeping in tune with recent technologies the Geomatic Centre of Forest Department utilised the recent innovations of Remote Sensing, Geographical Information System (G.I.S.), Global Positioning System (G.P.S.) for its Planning, Management and Monitoring of Forest resources.

A periodical vegetation Canopy cover Monitoring is carried out for every two years to monitor the vegetation status. The Geomatic Centre has developed various designs for the inventory of resources like Timber, NTFP and Medicinal Plants etc. The Centre has also developed the mapping of Fire Risk Zonation, Water Harvesting Structures, Kolleru Lake etc.

The Geomatic Centre imparts training to the field officers to adopt the recent technologies in their day-to-day activities including Working Plan, Micro Plans of Vana Sanchara Samithies etc. The Government of India awarded E-Governance award twice for the exemplary work carried out by Geomatic Centre by awarding Silver Icon and Golden Icon in the last two years.
